Dear David Miller,

We hope this letter finds you well. Let's take a moment and define humanitarian: a person promoting human welfare and social reform. This is the exact opposite of what the IDF and Israeli government are doing to the Palestinian people. Innocent people and children are dying everyday. From October 2023 to September 2026 the Israeli military have killed close to 74,000 and wounded around 175,000 people.

The U.S already donates billions of our tax dollars to the Israeli government to support such acts. Why is CMR donating to support another country's military? You are, of course, entitled to your beliefs and to donate your own money. We feel it's sickening that this company could even support and much less donate to a military that is actively killing innocent people and children everyday, causing mass destruction to not only the people but also obliterating their infrastructure and their land. We felt that it was important to let you know that we do not stand with your beliefs and don't agree with using the name of this company to support the IDF.

Some of the people that work for this company have Palestinian backgrounds. How do you think it makes them feel that this company supports this? Do you view them as less than? It can make it a dangerous environment for them.

Clearly it didn't smooth over like you all thought it would by turning off comments and deleting posts. It's out there, and whether you will admit or not, the brand is tainted. People in the company and community are very angered by the support and donations. We also want to let you know that this isn't something we are going to stop talking about and we hope the community doesn't either. This isn't very "putting associates first" of us, is it now?

- Concerned associates
