Dear David Miller and CMR leadership,

A group of associates here at Lincoln Social Rooftop are writing to express the disgust and disappointment at the financial support the Friends of the Israeli Defense Forces is receiving from David Miller and the CMR company as a whole.

We feel as though the company's values are so obviously being betrayed. In the recent memo sent out by David Miller he claims they are a “Humantirain Organization”. Having the IDF in the same sentence as "humanitarian organization” is not only contradicting but also a blatant lie. The IDF is responsible for years of murdering, sexually assaulting and displacing over thousands upon thousands of Palestinian women, children and men.

Cameron Mitchell Restaurants values go against everything the FIDF stands for. After all that has come to light with all the financial backing CMR has given to the FIDF we are asking that we come back to our values as a company and continue holding them up.

We are demanding that the support of the FIDF in every capacity, be stopped immediately and redirected towards true humanitarian causes. Along with ceasing all support and backing we ask that every CMR associate receives a statement acknowledging the wrongdoing of supporting this genocidal group and making it clear that all ties have been cut.

Your Raving Fans,
Associates of Lincoln Social Rooftop
